

Animal Rescue League of NH Education Team

545 Route 101 • Bedford, NH - 603.472.DOGS - www.rescueleague.org

In our role as community resource, the Animal Rescue League of New Hampshire offers a comprehensive educational seminar to pre-teens and adults (recommended for ages 10 and up). This **FREE** seminar is a perfect addition to any library curriculum, school, club or any organization interested in learning more about animal welfare and what the Animal Rescue League of NH shelter does. This program covers the following topics:

- **Humane Education** – what it takes to be a responsible pet owner, importance of spaying/neutering and dog bite prevention.
- **Animal Cruelty** – how to spot when an animal(s) is being neglected or abused. What steps you can take to help these animals in need.
- **Dog Obedience** – information on raising a well-mannered dog and a brief description of obedience classes held at the Animal Rescue League of NH.
- **Adoption and General Shelter Information** – what our shelter is and what services we provide. What types of animals we currently have available for adoption and how to go about adopting.
- **Volunteer Information** – what types of volunteer opportunities are available at our shelter and general information on how to get started.

If the venue allows, we also have the ability to bring live animals. Our humane educator has a therapy dog named Molly that loves to accompany us on our education seminars. We also like to bring some of our animals that are currently up for adoption. References from past participants, such as the Amherst Library, are available.

This seminar typically fills about a one and a half-hour time slot, but we can tailor it to your organization's needs. Please give us a call if this is something that your organization may be interested in booking. We do ask for about a 1-month notice to schedule your seminar.

We thank you for considering this opportunity and look forward to working with you!
