March is Adopt a Rescued Guinea

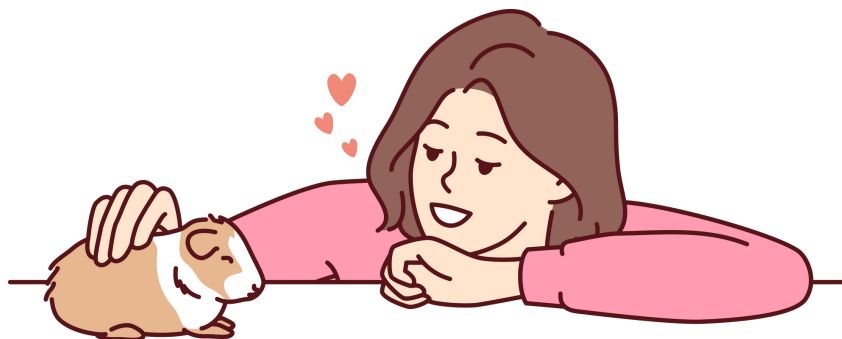

Pig Month!

Did You Know?

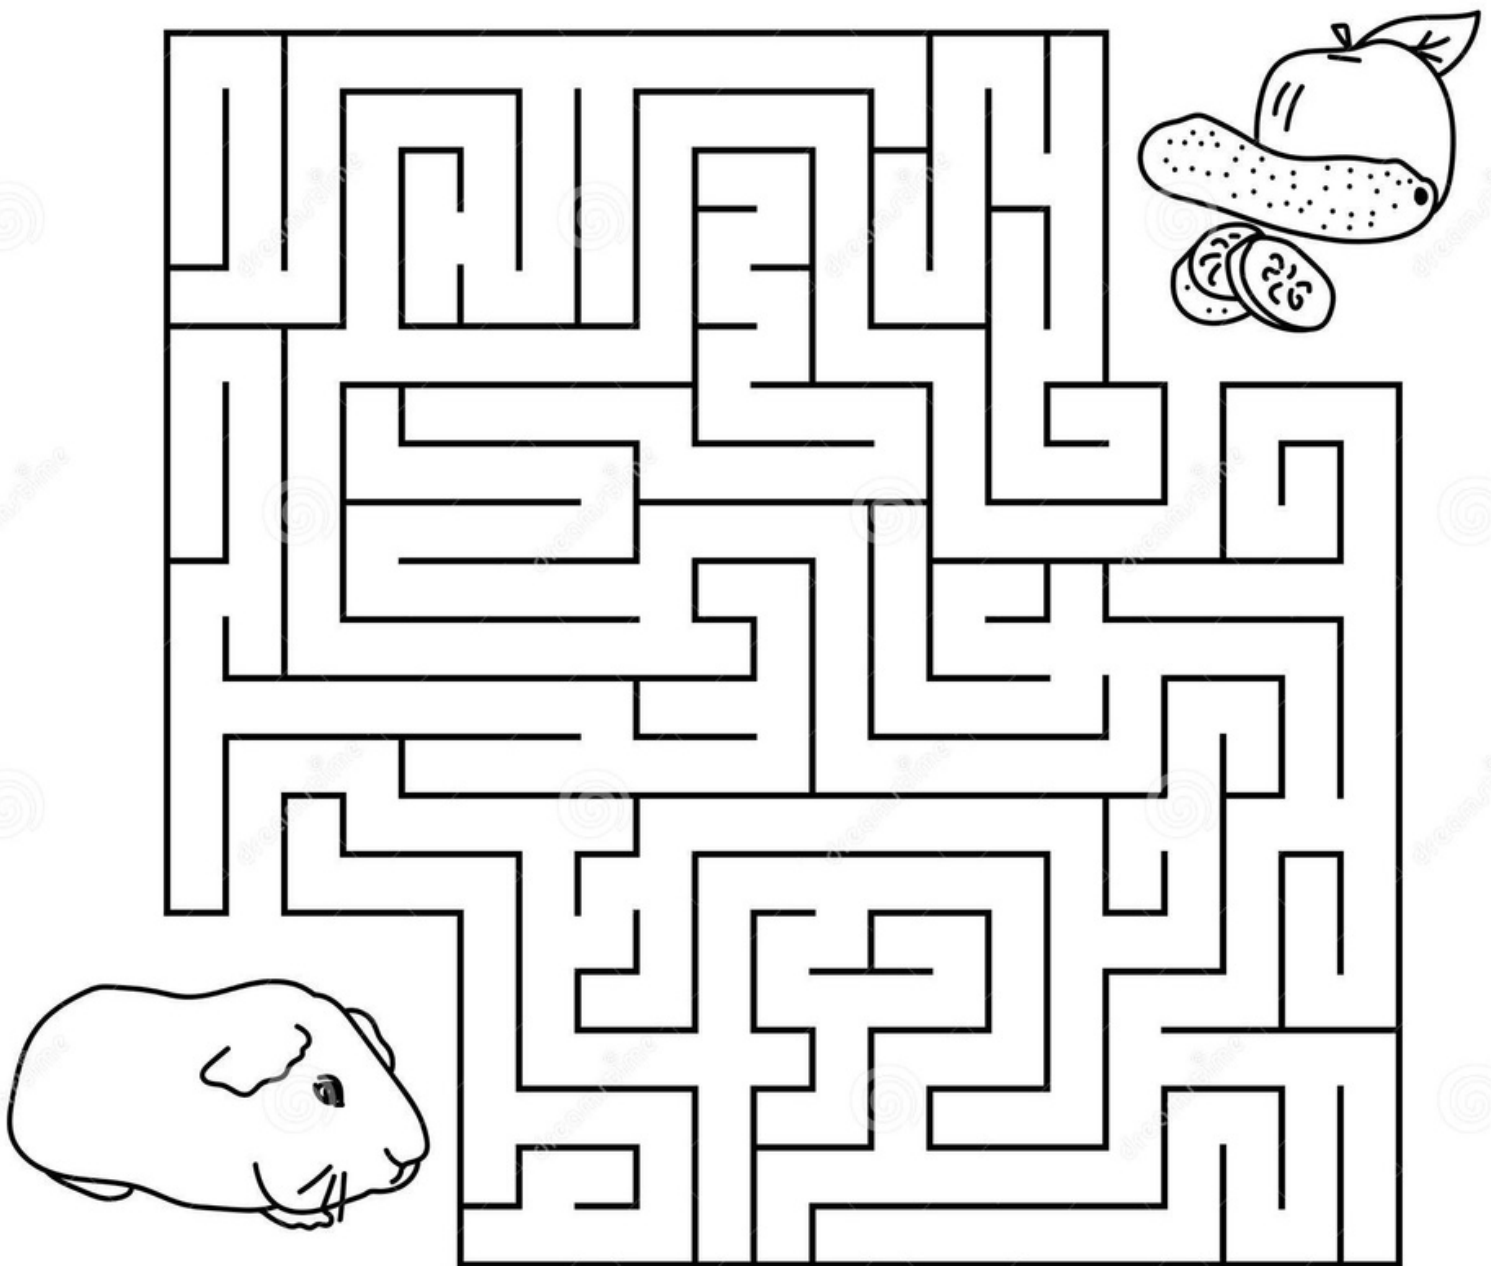

60 Guinea pigs were adopted in 2023 from ARLNH!

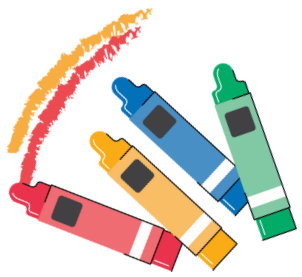

- The guinea pig or cavy (pronounced kay-vee) is a member of the rodent family, closely related to the chinchilla and the porcupine.
- Guinea pigs are herbivores, meaning they only eat plants. They eat small amounts of fresh fruits and vegetables high in vitamin C, feed pellets, and Timothy hay daily.
- On average, guinea pigs live five to seven years. Guinea pigs are active up to 20 hours per day and only sleep for short periods.
- Guinea pigs are highly social and do best in pairs or groups. They talk, play, groom, and form strong bonds with their friends.

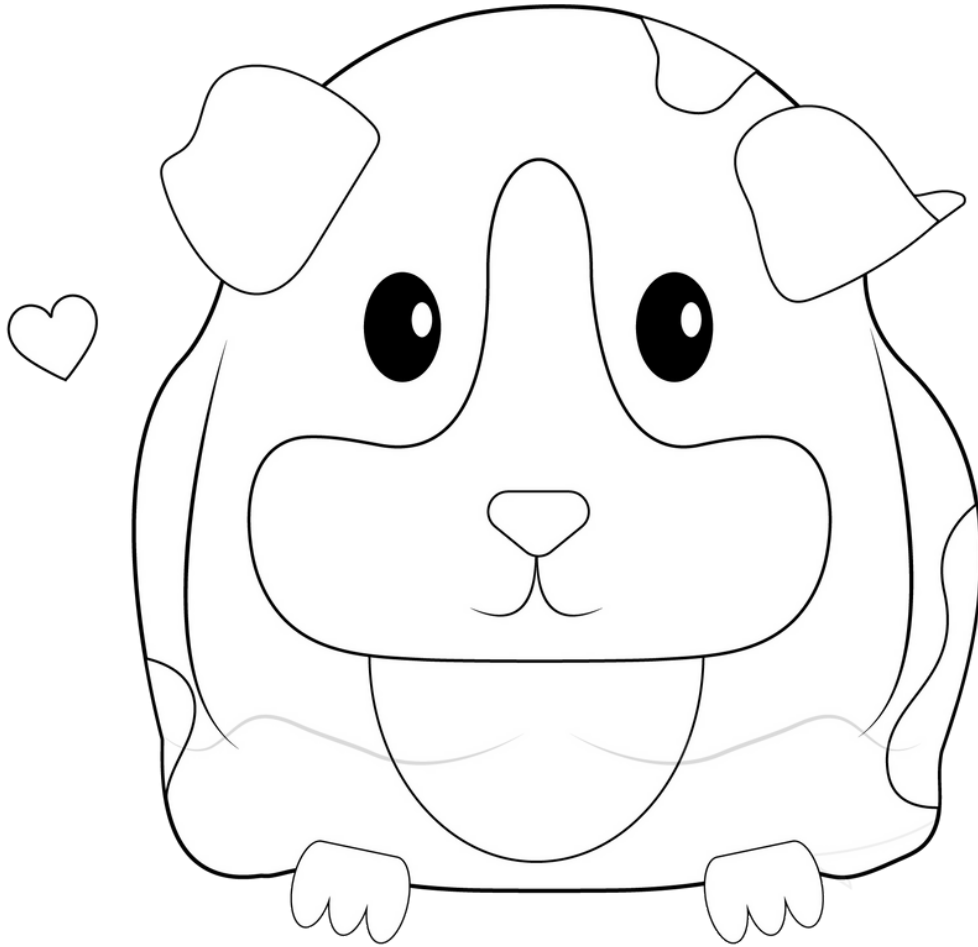

Breakfast is served! Help George through the maze to reach a delicious meal packed with healthy vitamins!

What Do Guinea Pigs Eat?

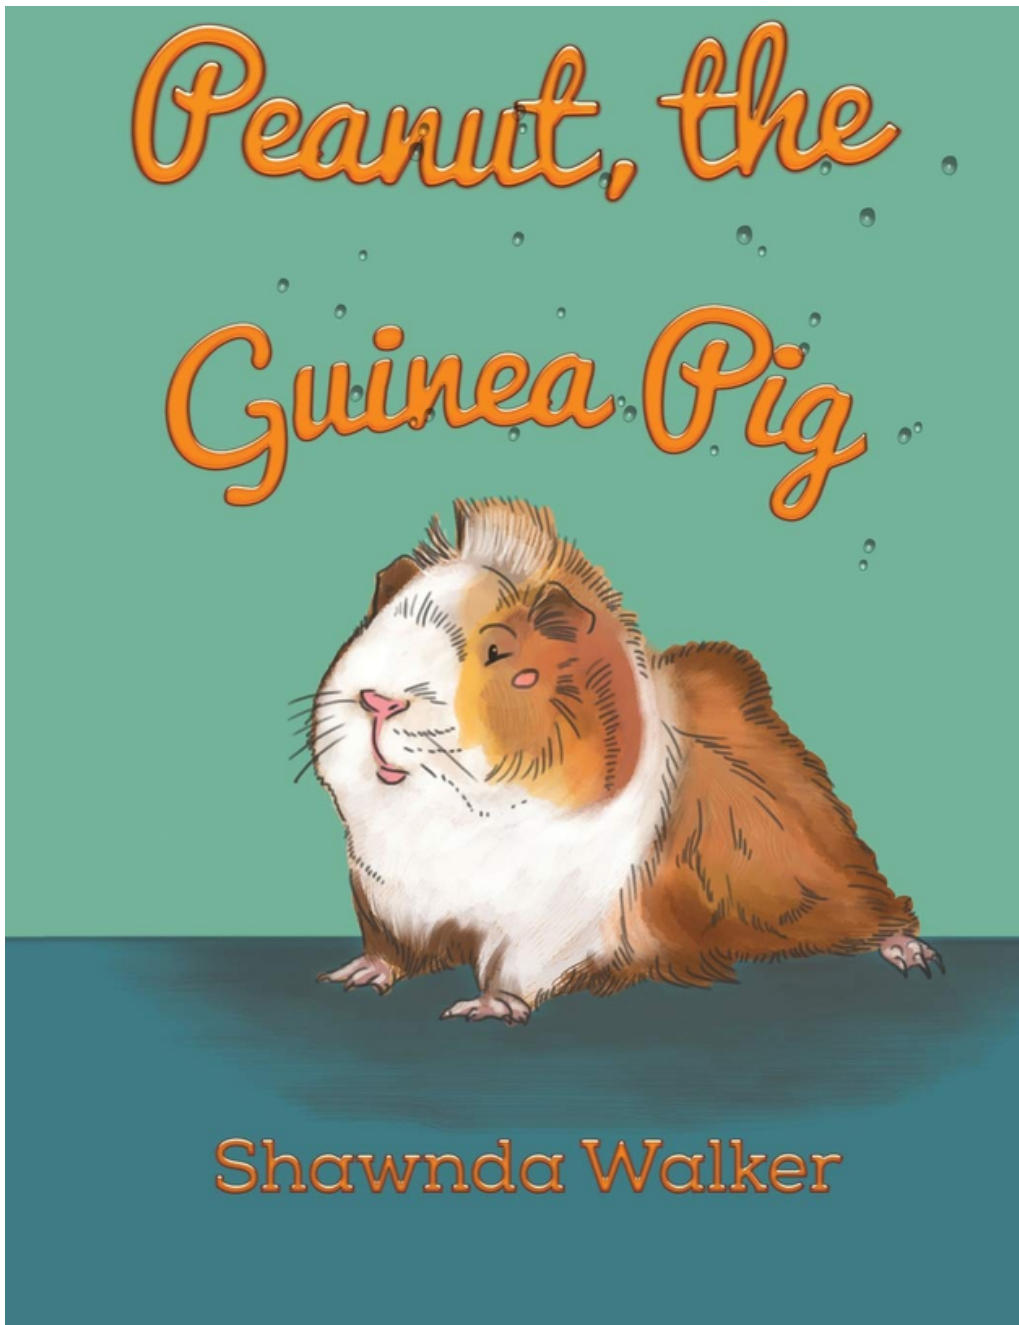

az

Directions: Circle each Guinea Pig SAFE food to fill your shopping cart! Watch out.. there are some UNSAFE foods hidden on the shelves.

Our Book of the Month!

Peanut finds herself lost and all alone in a strange place as a result of her own actions. Completely separated from her beloved owner, will she ever find her way back home? She's quirky and her adorable little personality will entertain and capture the hearts of readers. Follow Peanut on her journey as she tries to find her way back home and see what valuable lesson she learns in the process.
