# Kitten Season Approaches!

## What is kitten season?

Kitten season is the time of year where many litters of kittens are born. Generally, this happens as the days start warming up, usually between March and October.

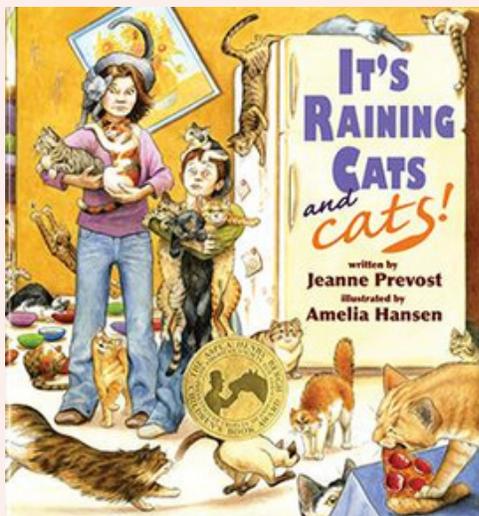

## How many kittens are in a litter?

On average, there are 4 to 8 kittens per litter, and a cat can have multiple litters a year.

Lets say one cat has 3 litters of 6 kittens in one year: that's 18 kittens! That's a lot of kittens needing to find homes!
